

| Micro CT Fees | | | |
|---|---|--|---|
| | Internal (third party founded projects) | External (scientific and non-commercial institutions) | Commercial |
| Consultation | Free of charge | Free of charge | Free of charge |
| Machine scan time per hour * | Free of charge | 90 € | 180 € |
| Machine reconstruction time per hour * | Free of charge | 30 € | 60 € |
| Setup fee (per scan) | 70 € | 70 € | 70 € |
| Scan report (per scan) | 50 € | 50 € | 100 € |
| Data storage | Free of charge (published in NHMW's data repository) | 1 st year free of charge from 2 nd year 5 € / 10 GB / month | 1 st year 10 € / 10 GB / year from 2 nd year 5 € / 10 GB / month |
| Hourly rate visualization * (extent according to agreement, e.g. segmentation, preparation for 3D print) | 69 € | 69 € | 138 € |
| Training: visualization software ORS Dragonfly (3 h) | Free of charge | 200 € | - |
| Hourly rate workstation * | Free of charge | 10 € | - |

* Billing unit: 30 minutes
All prices excl. VAT

Service only according to availability and after consultation!

A **setup fee** of € 70 is due per scan.

Prices or services **do not** include the preparation of the samples (e.g. staining in metal solutions or fixation with agarose). Samples must already be in a state that enables a scan. Support for adequate preparation will be given during the consultation.

Independent use of the MicroCT by internal users is only possible after adequate training. The prerequisite is the mandatory consultation or an agreement with the NHMW microCT operator, especially to discuss if the scans can be carried out independently (depending on the type and number of samples).

Appointments are made after consultation and confirmation by Viola Winkler.

The scan report (created by the NHMW staff) contains the technical parameters of the scan (in tabular form) as well as meaningful images (sectional and volume images) as PDF. The hourly rate for visualization is to be paid for further analyzes (scope upon agreement). Several scans can also be combined in one PDF, but the **respective costs** will still be charged **per scan**.

Visualization and analysis of the data by NHMW staff is possible by agreement of the scope. Here the 'hourly rate visualization' is charged per hour.

As of 19th of December, 2022

Data transfer (external and commercial): The data is saved on a USB stick (128 GB, fixed price: 50 € + shipping) or a hard drive (1 TB, fixed price: 100 € + shipping) and transferred directly or sent.
